Supplement dated June 6, 2022 to the Updating Summary Prospectus dated May 1, 2022

This supplement describes a change to the investment options under your variable annuity contract. It is for informational purposes only and requires no action on your part.

Beginning June 27, 2022, you may satisfy the Investment Requirements of your Contract by allocating your Purchase Payments to an asset allocation model. The following paragraph is added to Appendix B of the Updating Summary Prospectus:

As an alternative, to satisfy these Investment Requirements, 100% of the Contract Value may be allocated to one of the following asset allocation models: Dimensional/Vanguard Global Growth Allocation Model or Dimensional/Vanguard Moderate Allocation Model. These models are made available to you by your broker-dealer. You may only choose one asset allocation model at a time, though you may change to a different asset allocation model available in your Contract that meets the Investment Requirements or reallocate Contract Value according to the Investment Requirements listed in this Updating Summary Prospectus. If you terminate an asset allocation model, you must follow the Investment Requirements applicable to your rider. We may exclude an asset allocation model from being available for investment at any time, in our sole discretion. You will be notified prior to the date of such a change.

Please retain this supplement for future reference.

Appendix B — Investment Requirements

If you elect the Earnings Optimizer Death Benefit, you will be subject to Investment Requirements. These Investment Requirements will apply for the entire time your Contract is in force. This means you will be limited in your choice of Subaccount investments and in how much you can invest in certain Subaccounts. This also means you will not be able to allocate Contract Value to all of the Subaccounts that are available to Contractowners who have not elected this Death Benefit. We impose Investment Requirements to reduce the risk of investment losses that may require us to use our own assets to make guaranteed payments under a rider.

We have divided the Subaccounts of your Contract into groups and have specified the maximum percentages of Contract Value that must be in each group at the time you purchase the rider. Some investment options are not available to you if you purchase this rider. The Investment Requirements may not be consistent with an aggressive investment strategy. You should consult with your registered representative to determine if the Investment Requirements are consistent with your investment objectives.

You can select the percentages of Contract Value (or Account Value if *iLIFE*[®] Advantage is in effect) to allocate to individual Subaccounts within each group, but the total investment for all Subaccounts within the group must comply with the specified maximum percentages for that group.

In accordance with these Investment Requirements, you agree to be automatically enrolled in the portfolio rebalancing option under your Contract and thereby authorize us to automatically rebalance your Contract Value on a periodic basis. On each quarterly anniversary of the effective date of the rider, we will rebalance your Contract Value. If your allocation instructions include Lincoln Defined Outcome Funds, the Contract Value within those funds will not be rebalanced. The remaining percentages of your other variable funds will be prorated for the quarterly portfolio rebalancing program since the Lincoln Defined Outcome Funds are not rebalanced. Any reallocation of Contract Value among the Subaccounts made by you prior to a rebalancing date will become your allocation instructions for rebalancing purposes. Confirmation of the rebalancing will appear on your quarterly statement. If we rebalance Contract Value from the Subaccounts and your allocation instructions do not comply with the Investment Requirements, then the portion of the rebalanced Contract Value that does not meet the Investment Requirements will be allocated to the LVIP PIMCO Low Duration Bond Fund as the default investment option, or any other Subaccount that we may designate for that purpose. **These investments will become your allocation instructions until you tell us otherwise.**

We may change the list of Subaccounts in a group, change the number of groups, change the minimum or maximum percentages of Contract Value allowed in a group, change the investment options that are or are not available to you, or change the rebalancing frequency at any time in our sole discretion. You will be notified at least 30 days prior to the date of any change. We may make such modifications at any time when we believe these modifications are necessary to protect our ability to provide the guarantees under these riders. Our decision to make modifications will be based on several factors, including the general market conditions and the style and investment objectives of the Subaccount investments.

At the time you receive notice of a change to the Investment Requirements, you may:

1. submit your own reallocation instructions for the Contract Value, before the effective date specified in the notice, so that the Investment Requirements are satisfied; or
2. take no action and be subject to the quarterly rebalancing as described above. If this results in a change to your allocation instructions, then these will be your new allocation instructions until you tell us otherwise.

At this time, the Subaccount groups are as follows:

Group 1 – Unlimited Subaccounts

You may allocate 100% of your Contract Value or Account Value among any Subaccount not listed Group 2 – Unavailable Subaccounts

Group 2 – Unavailable Subaccounts
These funds are not available if you have elected the Earnings Optimizer Death Benefit
